

## Programming assignment 7.

**Due date:** Sunday, November 24, 2019 at 11:59pm

---

In this program you are required to implement a random directed graph.

1. Request the user to determine the order ( $|V|$ ) and size ( $|E|$ ) of the graph.
2. Generate  $|E|$  random edges into the adjacency matrix/list (**Adj**) to make a random *directed* graph.
3. Print the resulting adjacency matrix/list.
